2. クミがディベートをしたあとにまとめた原稿を読んで、あとの問いに答えましょう。

Many people use smartphones\* or emails for communication. Although they are very useful tools to contact someone, I think face-to-face\* communication is the best way to communicate with others for several reasons.

First, when you send an email to your friends, they may misunderstand\* the things which you want to say. Then you have to send another email to explain yourself.\* When you call your friends in a harsh tone,\* they may feel you are angry.

Second, when you talk with your friends directly,\* you can see if\* they don't understand the things which you are saying. If so, you can repeat yourself\* or use easier words or expressions.

Third, when you meet your friends face to face, you communicate with your body,\* your eyes, and your hands. Your gestures will help them understand you better. You can look at your friends' faces and hear their voices directly. Then you will feel that you want to communicate with your friends more. Your relationship\* with them will become stronger.

In conclusion,\* I believe that if you want to communicate with another person, the best way is talking face to face.
